

In the name of God

The International Congress of Neurosurgery 15-17 November 2017- Urmia -IRAN

Opening Wednesday (15 November 2017)

<i>The Holy Quran</i>
<i>Lecture of Chair of Urmia University of Medical Science (Dr.Aghazadeh)</i>
<i>Lecture of Chair of Iranian Neurosurgeons Society</i>

Wednesday (15 November 2017)

Chairmen: Dr. Saied Panahi, Dr.Omidvar Rezaie , Dr. Shakeri , Dr.Abbasnezad, Dr. Bahman Nobari		The 1st session
Alimohamadi S. Maysam	How is the distribution of Neurosurgeons per population worldwide? Where are we?	(9-9:10')
Mirza-aghazade-attari Mohammad	The Quality of the Reporting of Randomized Controlled Trials after CONSORT 2010 Statement in the Neurosurgery Prestigious Journals	(9:10-9:20')
Ghaffar pasand Fariborz	Brain–heart interactions: neuromodulation of cardiac physiology and pathophysiology	(9:20-9:30')
Kahraman Serdar	fluorescence microscopy in intradural tumors	(9:30-9:50')
Fallahi Motlah Masoud, Rohi Dariush	Orbital tumor surgery Extracranial Versus Intracranial approach Report of 9 cases	(9:50-10)
Dr. Fakhr-Tabatabaei and lecturers	Summary	(10:10-45)
Break		(10:45-11)

Chairmen: Dr. Mahmood Tabatabaee ,Dr. Ghaffar shokouhi, Dr. Masih Saboori , Dr. Faraji , Dr. Akbar Farzannia		The 2nd session
Pour rashidi boshrabadi Ahmad Alimohammadi Maysam amirjamshidi Abbas	Subtypes of glial lesion defined by molecular genetic analysis	(11-11:10')
Seddighi Afsoun	Comparison of Subtemporaltranstentorial with reter- osigmoid approach for petroclival meningioma	(11:10-11:20')
<i>Arami MA, Shirvani M, Sharifi G, Samadian M.</i>	Intraoperative monitoring of facial motor evoked potential (MEP) in large acoustic schwannoma sur- geries.	(11:20-11:30')
Solati Ahmad	Deep brain tumor biopsy usually performed by ste- reotactic biopsy	(11:30-11:40')
Mousavinezhad Sey- yedali	Intra abdominalpseudocyst after ventriculoperitoneal shunting	(11:40-11:50')
Amir Azarhoamyoun	Collision of different types of meningioma in one patient:A case report and review of literature	(11:50-12')
Saffarian A. Shamspour S.Z. Dehghanian A. Taghipour M.	A 56-year old man with intrasellar arachnoid cyst: A case report and review of the literature	(12-12:10')
Farrokhi Majid Reza, Taghipour Mousa, Ghaf- far pasand Fariborz	TransvermianTransvelar Approach to the Troch- lear Nerve Schwannoma Locating in the Pineal Region; A Technical Case Report	(12:10-12:20)
Dr. Ketabchi and lectur- ers	Summary	(12:20-13)
Lunch and Praying		(13-14:30')
Chairmen: Dr. Ali. F. Tabatabaee, Dr. Bahram A. Mansoor, Dr.Ghadirpour,Dr. Iraj Lotfinia,Dr.Mashhadi nejad		The 3rd session
Noubari A.B Boschi A	Primary central nervous system lymphomas. Our Experience	(14:30-14:40')
Dolati Parviz, Olutayo do Olubiyi, Christopher S Ogilvy, Ajith Thomas	Analysis of the Angio-Architectural Factors Affect- ing Early and late Clinical and Angiographic Out-	(14:40-14:50')

	come after Treatment of Brain Aneurysms Using Pipeline Flow-Diversion Stents	
Rahmanian Abdolkarim, Sahmeddini Mohammad Ali	Efficacy and Safety of Adenosine-Induced Transient Asystole for Complex Intracranial Aneurysm Clip Ligation	(14:50-15')
Smadian Mohammad, Hallajnejad Mohammad,	microsurgical decompression for treatment of hemifacial spasm; surgical consideration and outcome	(15-15:10')
Masoudi, M.S, Ramezani, H	Surgery of Craniosynostosis; Experience of 180 cases	(15:10-15:20)
Dr.Kazem Abbasiyoun and lecturers	Summary	(15:20'-16:20')
Tourism		
Dinner		

Thursday (16 November 2017)

Chairmen: Dr. Shirinivas Rohidas, Dr. hoshang Moein, Dr. Alireza Zali, Dr. Abbaszade, Dr. Ghorbani		The 1st session
Break		
Ghadirpour Reza, Iaccarino Corrado, Picetti Edoardo, Servadei Franco	decompressive craniectomy in low and middle income countries	(8-8:20')
Sasani Mehdi	Surgical approach to thoracic disk herniation	(8:20-8:40')
Peker Selcuk	Movement disorder surgery	(8:40-9)
Rohidas Shrinivas	Endoscopic spine surgery Destandau's technique- past, present, & future	(9-9:20')
Dr.Sultan Kashif, Shahzad Hussain, Naveed Ashraf	Dose related efficacy of Mannitol in traumatic Brain injury based on Intracranial pressure monitoring	(9:20-9:40')
Dr.Hernesniemi Juha	Brain vascular aneurysm	(9:40-10)
Dr. Abbas Amirjamshidi and lecturers	Summary	(10-10:40')
Break		

Chairmen: Dr.Karesten Wrede, Dr. Mohammad Asghari,Dr.samini, Dr. Hamidreza Saidee, Dr. Ali Meshkini		The 2nd session
Mirzaeian Javad	Upcoming prespective of modern awake craniotomy	(11-11:10')
Wrede Karesten	Unstable intracranial aneurysms	(11:10-11:30')
Bahrami Eshagh	A Practical review of the filum terminal myxopapillaryependymoma versus ependymoma of the conus medularis	(11:30-11:40')
Vahedi Payman, Srinivas K.	“Cortical based Trajectory Screws:Emerging Less Invasive Spinal Fusion Technique”	(11:40-11:50)
Safdari Mohamad	Cervical Magnetic Resonance Imaging (MRI) Findings in Patients with Neck Pain; A Cross Sectional Study in Southeast of Iran	(11:50-12)
Jangiaghdam Hamid	Traumatic Atlantoaxial Dislocation with Odontoid Fracture:A case report	(12-12:10)
Shafizad Misagh, Shafiee Sajad	Results of surgical site infections in patients undergoing posterior spinal surgery of using vancomycin powder	(12:10-12:20)
Jamali Mohammad , EntezamSepehr, GhahramaniSulmaz	Mimicking cerebrovascular accident by Spontaneous epidural hematoma of cervical spine,; a case report	(12:20-12:30)
Dr.Peker Selçuk	How gamma knife radio surgery effected the practice of neurosurgery	(12:30'-12:40')
Dr.Faraji and lecturers	Summary	(12:40-13:15')
Lunch and Praying		(13:05-14:15')

Chairmen: Dr.kashif sultan, Dr.Shahrokh Yousefzadeh, Dr. Mohammad Safaee, Dr. Ali Hashemzadeh		The 3rd Session
Shafiee Sajad, Shafizad Misagh	The Role of hypocalcemia as a prognostic factor in mortality and morbidity in patients with moderate to severe brain injury.	(14:15-14:30')
Fakharian EsmaeilAbedzade-Masoumeh	Effect of Tranexamic Acid on Prevention of Hemorrhagic Mass Growth in Patients with Traumatic Brain Injury	(14:30-14:40')
Hamed Gholamshahi Reza	Neuroprotective Effects of Minocycline and Melatonin against Traumatic Spinal Cord Injury in Rats	(14:40-14:50')
Khalili Hosseinali,	Correlation between the Fibrinogen Level and Re-	(14:50-15)

Niakan Amin, Ghafarfarpasand Fariborz	Operation in Patients with Traumatic Brain Injury undergoing Decompressive Craniectomy	
Dr.Hernesniemi Juha	Brain AVMs	(15-15:20)
masoudi Mohammad sadegh. Rezaee Elahe	Causes of hemodynamic instability in children after Applying Negative Pressure to epidural Draining catheter after Craniotomy(Negative pressure epidural syndrome)	(15:20-15:30)
Ghadirpour Reza, IaccarinoCorrado	Alloplastic cranial reconstruction with hydroxyapatite: prospective study versus autologous bone and retention management after septic complication	(15:30-15:40')
Dr.Yousefzadeh& lecturers	Summary	(15:40-16:25')
Tourism		
Dinner		

Friday(17 November 2017)

Chairmen: Dr.Juha Hernesniemi, Dr.Ehteshami, Dr.Etemad Rezaei, Dr. Saleh Rasras, Dr.Farrokhi, Dr.Rahmanian		The 1st Session
Sadegh Masoudi Mohammad, Hoghughi Mohammad Ali	Bilateral V-Y Flap with Latissimus Dorsi and Gluteal Advancement for Repair of Large Myelomeningocele Defects; A Single Center Experience	(8-8:10')
Razmkon Ali	Percutaneous Interventions for Chronic Spinal Pain and Failed Back Surgery Syndrome: A Neurosurgeon's Perspective	(8:10'-8:20')
Özkök Başak Hale	Current status in spine radiosurgery	(8:20'-8:40)
Küçük Nadir	Techniques and devices used in modern radiotherapy treatments.	(8:40'-9)
Jalilik Hoshnoud Reza	Spinal cord stimulation & Sacral nerve stimulation; indication and procedure technique.	(9-9:10)
Rohidas Shrinivas	Endoscopic cervical spine surgery techniques-with Destandau technique	(9:10-9:20)
Mohseni Birjandi Majd Moghadam Qaeini	Giant sacral schwannoma. A case report.	(9:20'-9:30)

Maryam		
Dr.Masih Saboori and lecturers	Summary	(9:30-10:30')
Break		

Chairmen: Dr.Salehpour,Dr.Sheykh Rezaie, Dr.Masoud Shirvani , Dr.Parviz Sammad Motlagh ,Dr.Fakharian , Dr.Vahedi		The 2nd Ses- sion
Rezamohammadi Has- san	Intracranial trigeminal nerve schwannoma: a case re- port	(11-11:10')
Sharifi Guive Hallajnejad Mohammad Akbari Dilmaghani Nader	Endoscopic trans-sphenoid sinus surgery for Cushing dis- ease; experiences of 64 patients	(11:10-11:20')
Zeinalizadeh Mehdi Sadrehosseini Seyed- Mousa	The Endoscopic Endonasal Resection of Pediatric Craniopharyngiomas: short-term outcomes and tech- nical nuances	(11:20-11:30')
Malekinejad H. Aghazadeh J.	Neuroblastoma cells showed a high capacity for neu- ro-molecular researches: Promising results for over- coming the hypoxia-reoxygenation-induced impacts on neuronal cells	(11:30-11:40')
Emamhadi Mohammad Reza	Intramuscular compared with subcutaneous transposi- tion for surgery in cubical tunnelsyndrome	(11:40-11:50')
Saboory E ,Tasbih-Forosh M, Zarei L	Impact of Electromagnetic Field with Predatory Stress on Functional and Histological Index of Injured-Sciatic Nerve	(11:50-12')
Abili Mehdi	A review of repair techniques in injury to the brachial plexus	(12-12:10')
DR.Hernesniemi Juha	Brain Meningiomas	(12:10-12:30)
Dr.Ghodsi and lecturers	Summary	(12:30-13:20)
Closing		
Lunch and praying
